Subject: Do not increase our rates

Hi, Comissioner. I would just like to voice my opposal of Duke raising it's rates AGAIN on their customers. There isn't a need for another rate increase... what's absurd is that I get notices in the mail telling me how to reduce my power bill, do you know how it tells me to save energy during the summer? Allow my house to be 80 degrees in my house. I mean who does that in the south? If I wanted to live like that I wouldn't have spent money on air conditioning system for our house. They are raising rates and telling us to be uncomfortable in our

own homes to save money. What they could do is quit raising my rates so I could afford to live more comfortable in my own house.

Thank you for listening to my concern and I hope you take the community of people that you serve and their need for lower power rates into consideration.

Best regards,

Haven Willimon
